About ICCI

International Conference on construction Industry (ICCI) is a regular event organized with every Build Asia Exhibition Annually. This year one day conference is being organized on December 15th, 2018 by Ecommerce Gateway in collaboration with its knowledge partner NED University of Engineering and Technology, Karachi. The theme of the conference is 'Innovation and Technology for Building Construction-The Way Forward.' The main idea of this theme is to provide a platform for idea sharing in order to adopt latest innovation and technology in the construction industry. This will not only enhance the efficiency of construction industry but will also help in becoming more competitive in emerging global construction industry scenario that is gripping the region. The inaugural session of the conference will cover the stakeholder's perspective whether it be of the academia, regulatory bodies, construction and builders association regarding the theme. While, the technical session will include expert speakers who will present different innovation ideas, and technological advancements that can be adopted by the building and construction industry of Pakistan.
